An interesting city

My favourite city is New York. It is in the USA. New York's **nickname** is The Big Apple. 8 million people live in New York.

Parks

Manhattan is the centre of New York. In Manhattan you can go to Central Park. In the park you can ride a bicycle, rollerblade or ride a horse. In **winter** you can ice-skate there. In the city there are many other parks where you can relax and have a **picnic**.

New York has got a lot of **skyscrapers**. The Empire State Building is over 85 years old. It has got 102 floors. You can go to the top of it and see the city. You can see Egyptian **mummies** and modern art at the Metropolitan Museum of Art.

The New York City **Marathon** is very famous. 50,000 people run the marathon every year in November. Baseball is a popular team sport in the USA. In New York you can go and see a baseball game at the Yankee Stadium.

In New York you can eat food from all around the world. There are many expensive restaurants, but you can also buy **delicious** hot dogs and hamburgers out on the street.
